

line_item.LineItem.generate
_edges

rectangle_item.Rectangle
Item.generate_edges

line_item.LineItem.get_path

```
graph LR; A["line_item.LineItem.generate_edges"] --> C["line_item.LineItem.get_path"]; B["rectangle_item.RectangleItem.generate_edges"] --> C;
```

The diagram illustrates a mapping or inheritance relationship. On the left, two white rectangular boxes with black borders contain the text 'line_item.LineItem.generate_edges' and 'rectangle_item.RectangleItem.generate_edges'. On the right, a gray rectangular box with a black border contains the text 'line_item.LineItem.get_path'. Two blue arrows point from the right side of each white box to the left side of the gray box, indicating that both methods on the left are associated with or mapped to the method on the right.
