

QMainWindow

QMainWindow

main_window.MainWindow

```
graph BT; A[main_window.MainWindow] --> B[QMainWindow]; A --> C[QMainWindow];
```

The diagram illustrates a class hierarchy. At the bottom is a box labeled 'main_window.MainWindow'. Two arrows originate from this box and point upwards to two separate boxes at the top, both labeled 'QMainWindow'. This indicates that 'main_window.MainWindow' inherits from both 'QMainWindow' instances.
