Service.clear_and_select_item

selection_service.Selection
Service.select_all

selection_service.Selection
Service.update_selection

selection_service.Selection
Service.clear_selection

```
graph LR; A[selection_service.SelectionService.clear_and_select_item] --> D[selection_service.SelectionService.clear_selection]; B[selection_service.SelectionService.select_all] --> D; C[selection_service.SelectionService.update_selection] --> D;
```

The diagram illustrates a mapping or inheritance relationship. On the left, three white rectangular boxes are stacked vertically. Each box contains a text string representing a method call: 'selection_service.SelectionService.clear_and_select_item', 'selection_service.SelectionService.select_all', and 'selection_service.SelectionService.update_selection'. On the right, a single gray rectangular box contains the text 'selection_service.SelectionService.clear_selection'. Three blue arrows originate from the right side of each white box and point towards the left side of the gray box, indicating that the three methods on the left are associated with or mapped to the single method on the right.
